

SAFIRA 
TECNOLOGIAS DE INFORMAÇÃO

OUTSOURCING & NEARSHORING

For a continuous approach to our customers needs and, simultaneously, to the future market models, SAFIRA offers two services:

Outsourcing

The main goal is to allow our customers to focus on their company's core activities, through the liberation of internal resources, reducing fixed and operational costs.

SAFIRA's commitment is to quickly ensure the best resources, as well as the access to technology and experts not available in your organization.

This model, sustained by the daily priorities of your business (BAU – Business As Usual), provides a fast technological, functional and operational adaptability to the different organizational vectors. (IT, Operations, Back-Office Services):

- > Business Process Management
- > Development and Application Support
- > Tester Dedicated Teams
- > Systems and Processes Audit
- > Infrastructure Support Activities

Nearshoring

Supported by the usual guidelines of Outsourcing and Offshore, all our analysis, development and maintenance services are already leveraged partially or totally by our delivery ability through our Warsaw office.

Compared with other Offshore locations, our Nearshoring concept benefits from:

- > Geographic Proximity, reducing travel, support and time fuse impact
- > Better understanding of European markets, namely Financial Systems' rules and specifications
- > Economic Proximity, being Poland an European Union member
- > Political and commercial Stability
- > Investment needs Reduction
- > Specialized team in functional and technical levels

We are certain that by working together in partnership we can help you reduce costs and capitalize on synergies.

ABOUT SAFIRA

SAFIRA develops solutions and provides IT services to leading companies in the national and international market. We provide engineering services to advise, audit, architect, conceive and manage IT systems that support the companies' business. Founded in 1997, SAFIRA has more than 50 active customers and a team of 120 highly qualified professionals.
